Dear FDA,

I have been having a successful and enjoyable time using the nutritional labeling you have instituted to gain better eating habits and improve my health.

PLEASE pursue and institute your proposal to require that trans fat be included with sat fat on these valuable food labels. Please do everything you can to limit the amount of trans fat in foods, especially those that make claims to low fat or cholesterol. This kind of work will save many more lives and improve the living standard for all Americans.

Thank you,

Ellen Deacon
